Ribcraft 4.2 Information and Pricing

Overview

Designed as a complete all-rounder, The Ribcraft 4.2 can be adapted to any application. The hull design is the sister craft to the Ribcraft 4.8 and ensures that the boat planes with ease, corners without skidding, are easily launched or recovered and is tremendous fun to drive.

The hull characteristics and rugged construction are ideally suited for anything from a family leisure boat used for water-skiing to a serious rough water rescue craft.

The Ribcraft's 4.2 has an excellent interior with generous working deck space to accommodate anything from rescue equipment to racing marks. All control cables are below deck making the deck a free working area.

With years of refinements, this boat is widely accepted by both the commercial and leisure markets. Ribcraft accommodates individual requirements for customers as diverse as leisure users in sun filled marinas to search and rescue professionals.
