

"All in all, over 1,600 miles of every type of sea, we never once felt compromised, in danger or fatigued by the ride given by the boat itself - a testimony then to Ribcraft's product, workmanship and practical attention to detail"

Steve Harvey of Team Ribex,
RIB International Magazine.

Designed as a complete all-rounder the Ribcraft 4.8 can be adapted to any application. The Ribcraft 4.8 design incorporates the qualities of exceptional safety, strength, stability, speed and comfort. Her high sheer bow and classic deep vee hull gives exceptional stability in rough weather whilst keeping the bow high in swells and heavy chop.

The hull characteristics and rugged construction are ideally suited for anything from a family leisure boat used for water-skiing to a serious rough water rescue craft. The Ribcraft 4.8 range is used for many different applications all over the world including water-sports, diving, family cruising, commercial use, safety and rescue.

Round Britain Challenge

An exciting and challenging event was completed in 2001. The 'Four Metres Around Britain (RB4)' was a challenge to circumnavigate Britain with boats under five metres in length. Three Ribcraft 4.8's entered the event, Merrill Lynch, Rib International and Team Ribex successfully completed the event in just 10 days!
