

RIBCRAFT FEATURES

- Deep Vee Hull
- Fast and Soft Riding
- Rugged Construction

The Ribcraft 6.8 is designed as a commercial foul weather boat and has proven herself in this field. Even in inhospitable sea conditions worldwide the Ribcraft 6.8 will transport you with confidence. With a long steep sheer towards the bow and a generous 2.7 metre overall beam they are true workhorses of the sea. The Ribcraft 6.8 can be customised to your individual specification whether military, commercial or rescue usage. The craft is capable of taking a wide range of power options which include outboard, stern drive or water jet.

Exported all over the world to a diverse spectrum of operators such as French lifeboat stations, Oil terminals, Fast Rescue Craft on the Nile and Swiss Lakes, the Ribcraft 6.8 is a true pedigree Rigid Inflatable.

The Construction

Ribcraft 6.8 has a cross linked inner matrix hull construction making her incredibly strong; the lay up is to commercial specification.

The 6.8 is capable of extended long distance cruising, her fuel tanks are located under-deck, maximising the console space and lowering the centre of gravity thus improving trim and handling.

The tubes are bonded to the hull over an extended tube flange that gives them far superior bonding strength between tube and hull than conventional flanges. The end product is an immensely strong hull and tube that meets M.C.A. Approval.
