

This Police Cabin Boat was built as a bespoke solution for a European Police force as part of a larger contract to replace their fleet of Ribs. The Cabin windows are frameless and hence the window size has been increased for enhanced visibility.

The Interior is insulated and has full heating and air condition, added features such as heated seats and widescreens add to the comfort for all year round usage in colder conditions. The boat has to cater for all year round, 24 hour operation and has a small galley and toilet facilities.

#### Specifications
