Ribcraft uniquely build the entire boat 'In House'; we have a team of experts who can offer you advice in taking your concept to reality, from the initial point of contact through to project management and aftersales. We have over 25 years of experience in delivering bespoke solutions to Commercial, Military and Rescue operators.

All our boats are commercial strength and designed for many years of use in this harsh environment, we have a proven track record of supplying this type of craft and many of the original boats made over 25 years ago are still in use today.
